# The AI Skill Stack for Learning & Development Teams

AI skills aren't just one thing.
They're a stack you build.

Andrew Crosby, M.A.Ed.

Reach4it™

Tool Comfort

Can your team use the tools?
Basic fluency matters. Training is vital.

Workflow Design

Where should AI fit in to your processes?
An AI powered LMS?
New tools for creating content?
What's your video strategy?
What about quizzes and assessments?
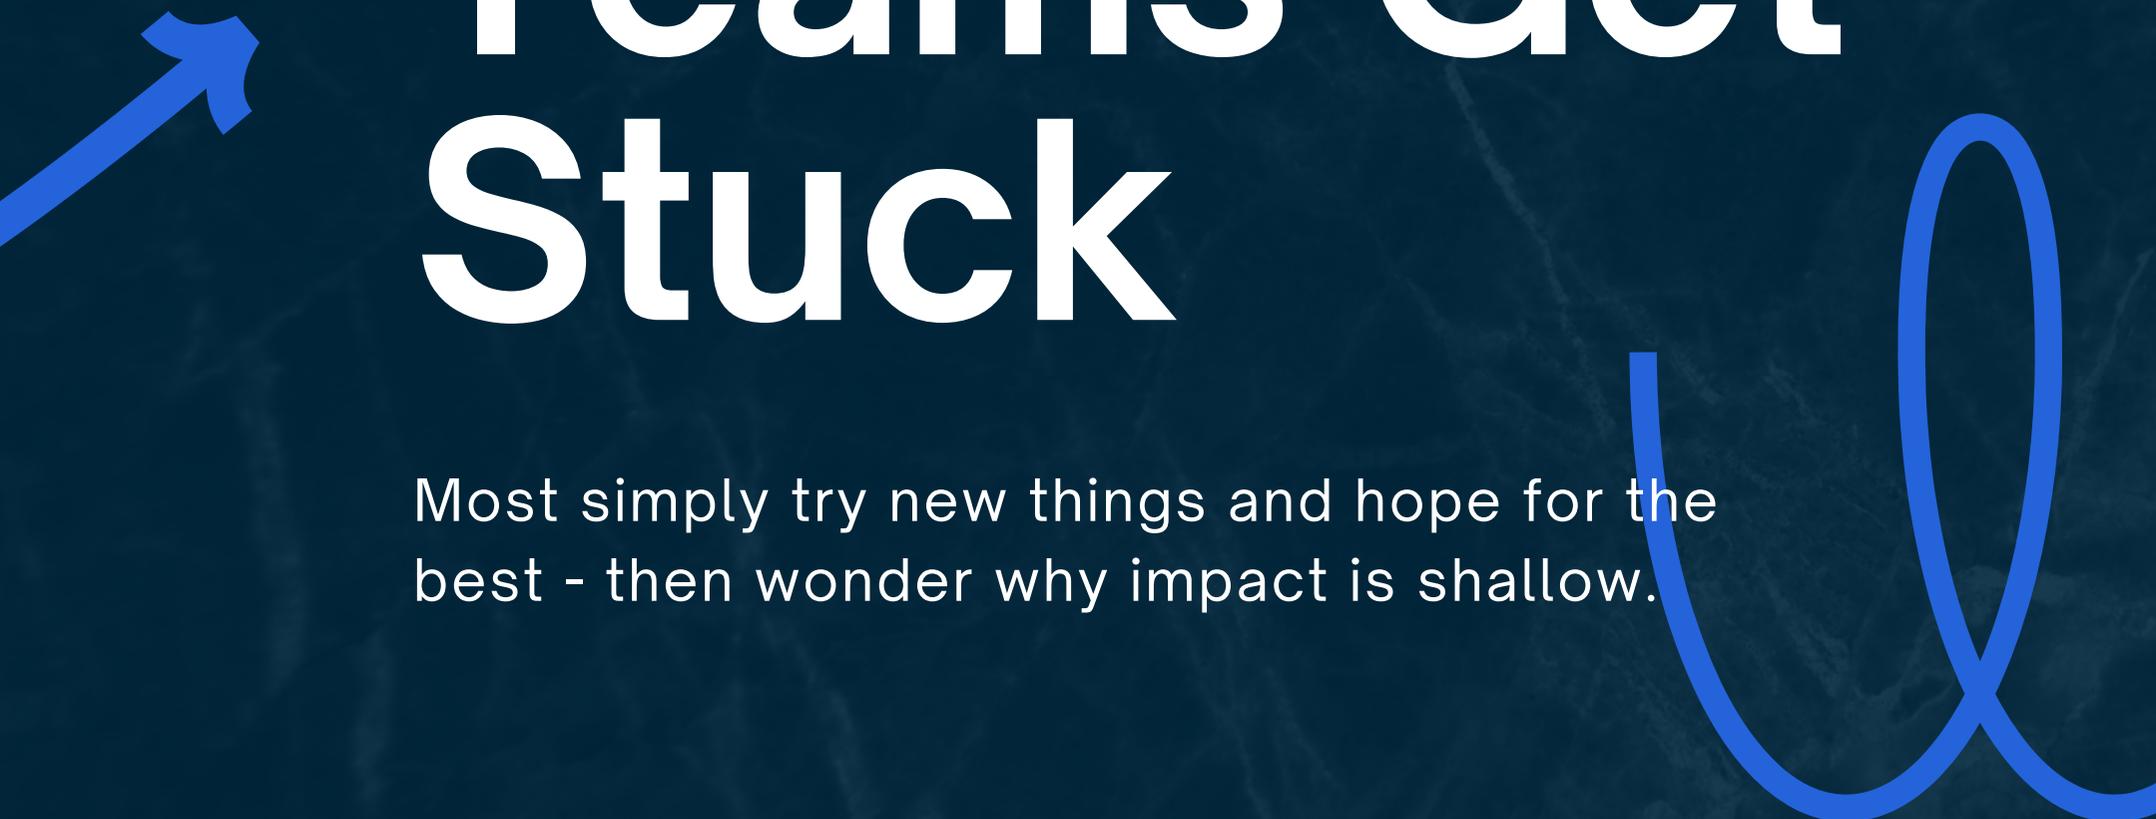

Reach4it™

Judgment
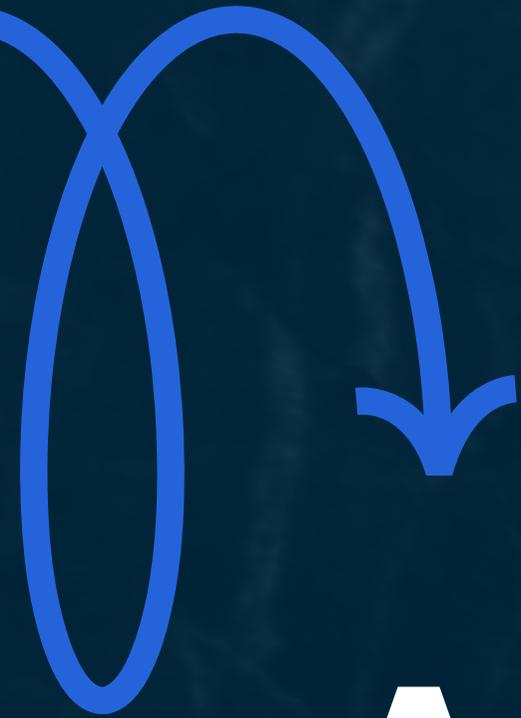

What software tools are "good enough"?
What software tools are risky?
Are the new tools easy to learn or do they
require classes/workshops?

Why Teams Get Stuck

Most simply try new things and hope for the best - then wonder why impact is shallow.

A Simple Start

Pick one workflow to improve.
Then build the strategy and tools around that.

Start the Conversation

Want a strategy that works for the big picture? Let's talk. Schedule a meeting. Visit the site.
